

## Hand-painted Lavender Sachets from Italy!!!!

Mrs Farinelli, an artist from Italy, has hand-painted these sachets and filled them with lavender from her garden, especially for the Heritage Hall Holiday Market

Her daughter worked with my mother in Italy during a summer program for young opera singers and brought me a sachet as a present.

I thought it would be lovely to have these here in Talladega and Mrs Farinelli offered to make some and send them to us to help the art enrichment programs at the museum

These are a beautiful gift for a special person and these sachets aren't available anywhere else.
